

AIR INBOND SPLITS

Query bill of lading to view status and retrieve accurate information possible.

Airway bills consists a master and house.

When dealing with '**splits**', meaning, shipments are divided and entering the U.S. separately. Usually, in CBP's database the 'splits' are marked as **Part A, Part B, Part C**, etc...These are seen in the query data.

Arrival dates and trip reference are important as these determines to which 'splits' pertains to. If different from each other, Inbonds are transmitted separately. **Important to indicate, 'Split' in AceSuite in the Bill of Ladings section.**
