

How to update port of entry.

Transmit the Entry Summary (AE) application data with “D” (Delete) action if summary is on file. Summary must be in Trade Control.

After Entry Summary (AE) delete is accepted:

Prior to arrival: submit either a Cargo Release (SE) transaction with the “U” (Update) or “R” (Replace) action **to request a Port of Entry change.**

or/if

After arrival and release: submit a Cargo Release (SE) transaction with the “U” (Update) action to request a Port of Entry change.

After Cargo Release (SE) is accepted, retransmit the Entry Summary (AE) application with correct port code without certifying for ACE Cargo Release.

***Failure to transmit the data in order may result in a Port of Entry mismatch between the Cargo Release and Entry Summary data.**
