

SCN's and Bill of Ladings

Query bill of lading to view status and retrieve accurate information possible.

SCN also known as the **shipment control number** determines the bill of lading reported in the cargo entry or inbond. If the scn in the e-Manifest is not exact as the bill of lading in the cargo entry/inbond, shipment will not link to CBP upon arrival and crossing will be affected.

Shipments					
#	SCAC	SCN	Customer Reference	Bonded ID	Entry Number
▶ 1	SCAC	B06123456	B06123456		

IT & BLs									
Inbond	Inb. Date	SCAC	BL	H. SCAC	H. BL	Quantity	UOM	Container/Equipment #	
▶ ⊕		SCAC ▾	B06123456			10	BDL
